Md. Fazle Rabbi

Computer Science & Engineering Student | Full-Stack Developer | AI Engineer
Nikunja-2, Khilkhet, Dhaka-1229, Bangladesh | +880 1779-326236 | fazlerabbicse65@gmail.com
Portfolio | Project Showcase | GitHub | LinkedIn | Codeforces | CodeChef

Professional Summary

Computer Science and Engineering undergraduate at Southeast University (CGPA: 3.85), building full-stack applications with Java, Spring Boot, React and SQL/NoSQL databases. Experienced in competitive programming (1,000+ solved problems), applied AI/ML and deep learning, and research coordination and data collection through the THIRA collaboration. Interested in backend engineering, practical AI systems, algorithmic problem solving and research writing.

Education

Southeast University, Dhaka *2023 – 2028 (Expected)*
B.Sc. in Computer Science and Engineering (CSE) | **CGPA: 3.85**

Rajshahi Government City College, Rajshahi *2018 – 2020*
Higher Secondary Certificate (HSC), Science

Technical Skills

- **Programming:** C, C++, Java, Python, JavaScript, HTML, CSS, TypeScript
- **Web & Backend:** Spring Boot, Spring Security, React, Next.js, Thymeleaf, REST APIs, MySQL, PostgreSQL, MongoDB, Supabase
- **Software & Concepts:** Data Structures & Algorithms, Object-Oriented Programming, JavaFX, MVC, database systems, microprocessors, Git, GitHub, Docker
- **AI & Research:** Artificial Intelligence, Machine Learning, Deep Learning, NLP (coursework), Google Colab, Kaggle, LaTeX, technical documentation, AI-assisted development
- **Tools & Platforms:** Linux, IntelliJ IDEA, VS Code, Microsoft Word, Excel, PowerPoint, Google Docs, Microsoft 365 Copilot
- **Design & Communication:** Canva, poster design, social media content, academic writing and presentation

Research, Leadership & Other Experience

Research Assistant / Assistant Coordinator & Data Collector *2023 – Present*
THIRA – Kyushu University, Japan and Grameen Communications, Bangladesh
Coordinated research activities and data collection; contributed to data processing and technical documentation. Recognized with a THIRA Certificate of Appreciation.

IEEE Computer Society Student Branch – Active Member *2023 – Present*
Southeast University
Participated in technical events, programming contests, LaTeX workshops and research seminars; supported events with Canva posters and social media materials.

Competitive Programmer (C/C++) *2022 – Present*
Codeforces, CodeChef, Beecrowd and AtCoder
Practiced graph algorithms, dynamic programming and number theory; solved 1,000+ programming problems and received an ICPC Asia Dhaka Preliminary 2024 Honorable Mention.

Class Representative *Dec 2023 – Dec 2024*
Southeast University
Served as a liaison between students and faculty on academic and administrative matters.

Team Leader – Educational Visit
Southeast University / Grameen Social Business Company
Led and coordinated a student educational visit to Grameen Social Business Company.

Tutor *Jan 2022 – Jan 2023*
Balihar High School, Naogaon
Prepared individualized lessons; reported an average 20% improvement in student grades.

Software & Research Projects

- **OrbitCart** *(React, TypeScript, Spring Boot, MongoDB)* — AI-assisted e-commerce with product discovery and comparison, orders, customer support, inventory, payments and administrator analytics.
- **Grand Meridian Resort** *(Java, Spring Boot, Spring Security, MySQL)* — Hotel reservation platform with multi-step booking, pricing, SSLCommerz/payment-at-desk options, guest dashboard and in-room services.
- **AgroLink** *(Spring Boot, Thymeleaf, Tailwind CSS)* — B2B farmer–buyer marketplace with produce listings, negotiated offers, escrow-backed orders, delivery tracking and district weather information.
- **DESCO Smart** *(Next.js, React, Supabase, PostgreSQL, Python)* — Prepaid electricity platform with multi-meter dashboards, usage analytics, balance forecasting and automated email alerts.
- **CityFix** *(Spring Boot, Spring Security, PostgreSQL, Thymeleaf)* — Citizen complaint reporting with photographic evidence, issue tracking, resolution ratings and an administrator dashboard.
- **Project Showcase / FR Foundry** *(Java, Spring Boot, Docker, HTML/CSS/JS)* — Personal project gallery centralizing project descriptions, technologies, source repositories and live demos.
- **Smart Attendance** *(HTML, CSS, JavaScript, Apps Script, Google Sheets)* — Attendance portal with student-ID entry, live daily records, bilingual UI and light/dark themes.
- **PaperPilot** *(Python, JavaScript)* — Research-paper organizer for searching publications, storing tags and notes, and exporting citations.
- **Library Management System** *(Java, JavaFX, OOP, MVC)* — Desktop application for book inventory, membership, borrowing history and fine calculation.
- **Parking Management System** *(Java, OOP, desktop application)* — Managed parking slots and vehicle entry/exit, fee calculations and customer records.
- **BMI Calculator** *(Python, Tkinter)* — Desktop GUI for body-mass-index calculation and instant BMI category classification.
- **DESCO Balance Alert** *(Python, REST API, GitHub Actions)* — Checked prepaid electricity balances and sent configurable low-balance email alerts. *(From previous CV)*
- **Java Console Student Management System** *(Java)* — Console application to add, update, search and manage student records. *(From previous CV)*

Awards & Competitive Achievements

- **ICPC Asia Dhaka Preliminary 2024 – Honorable Mention**; team members: Fahad Faisal, Fazle Rabbi and Ashraful Islam Shanto; coach: Tashreef Muhammad. Also participated in the 2025 and 2026 preliminaries (per portfolio).
- **CodeChef Diamond Streak Badge** — 100-day coding streak.
- **Techathon Nationals & Rover Summit 2026, Mega Quiz** — participant; IUT Robotics Society, Jul 2026.
- **ICT Olympiad, DUET CSE Carnival 2026** — participant; Jun 2026.

Certifications, Training & Research Recognition

- **Publish With Integrity: Essential Ethics for Research and Publication** — IEEE CIS, Sep 2026 (session participation)
- **Digital Forensics with Machine Learning Using the Autopsy Tool** — IEEE CIS, Sep 2026 (session participation)
- **Complete Data Science, Machine Learning, DL & NLP Bootcamp** — Udemy, 99 hours, May 2026
- **LaTeX Unlocked: The Research Writing Workshop** — IEEE Computer Society SEU SBC, Nov 2025
- **Python for Machine Learning: The Complete Beginner's Course** — Udemy, Oct 2025
- **AI+ Prompt Engineer Level 1** — AI CERTs, issued Jul 2025; **expired Jul 2026**
- **Optimize and Extend Microsoft 365 Copilot** — Microsoft Learn, Jun 2025
- **Ask Questions and Analyze Content with Microsoft 365 Copilot** — Microsoft Learn, Jun 2025
- **AI CodeLab Certification Program** — IEEE CS SEU SBC and Southeast University CSE Department
- **THIRA Project – Certificate of Appreciation** — Kyushu University and Grameen Communications; research contribution

Research Interests & Status

Medical AI and healthcare predictive modeling; Edge AI; federated learning; self-supervised learning; multimodal and longitudinal data analysis; and AI-enabled systems. **Research status:** Ongoing work on medical prediction and longitudinal learning methods.
